Now Open! Our 'Done-For-You' News Based Trading Signals

At this unprecedented time, interest rates and incomes for many people are low, so increased cashflow has become more important.

Since February 2020, in our '[Investing & Online Trading](#)' Report, we have specifically developed a short term, end-of-day, News-based trading strategy, with the aim of targeting profits of **+10%** to **+15%** in the current Australian share market within a few days**.

Last week we emailed members of the ShareTradingEducation.com community for their Expression of Interest in receiving end-of-day News-Based Trading Signals, ready for the following day.

We thank members for the overwhelming amount of positive EOI response and feedback we received for this initiative, so today we are delighted to announce our '**Done-for-You News Based Trading Signals Service**'* is now **OPEN**.

Each night we now scan the ASX200 to locate those Australian shares which also pass our '*News-based Entry Rules*', then, for on behalf of our Trading Signals Members:

- 1) On our '**Entry Signals Log**' we nominate our:
 - a. Maximum suggested Entry Price
 - b. Initial Stop Loss price
 - c. Corresponding Trade and Portfolio Risk %
- 2) (In our '**Cutting Room Floor Log**' we also list any shares which were filtered out and rejected – for Members' extra interest)
- 3) Monitor each notional trading position until they achieve our suggested Profit Target (or are stopped out)
- 4) Since the March 23rd Lows, some of the stocks we have selected for this '*News-based*' strategy have continued to trend upwards within their **rising trends**.

So, as an important **new addition** since last week's email, we now monitor each notional position '*entered*' in **2 discrete time frames**:

Method #1: Designed to grab quick profits in the order of **+10** to **+15%** in a few days**

Method #2: Designed to '*let profits run*' in a strong rising trend, using our '*News based Trailing Stop*'**

Each Trading Signals Member can then select which frame they prefer to use. E.g. dependant on your personal circumstances, risk profile, lifestyle, etc.

* This is not a Managed Discretionary Account service.
