Short -Term Trading Portfolio Update

By Jim Berg and John Atkinson

Introduction

Each week, in this section of our mentoring-style '[Investing and Online Trading](#)' stock market Newsletter we feature our '*Short Term Notional Trading Portfolio*', in which Jim Berg provides a '*live*' portfolio - to demonstrate (*in real time*) how he uses his common sense approach and JB Volatility Indicators to decide:

- ✓ **WHICH** stocks/shares to buy
- ✓ **WHEN** to buy
- ✓ How to manage his open positions, i.e.:
 - How and when to **HOLD** and, very importantly,
 - When to **SELL**

We also publish the results for each of those notional trades each week.

Disclaimer: Direct investing in the stock market can result in financial loss. Historical results are no guarantee of future returns. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. Stock tips or 'buy' or sell recommendations are **not** provided. This educational information is not designed to replace your Licensed Financial Consultant or your Stockbroker. It has been prepared without regard to any particular person's investment objectives, financial situation and particular needs. This information is of a general nature only so you should seek advice from your broker or other investment advisors as appropriate before taking any action. The decision to trade and the method of trading is for the reader alone to decide. Avestra Capital Pty Ltd (Avestra) AFSL 292464, and ShareTradingEducation.com ("STE"), as Corporate Authorized Representative of Avestra, disclaims all liability of Avestra, STE and its Associates for any loss or damage suffered by any person by reason of the use by that person of, or their reliance on any information contained herein, whether arising from the negligence of Avestra, STE or its Associates or otherwise. Refer also to the full disclaimer at the back of each newsletter Edition and our [Terms of Use](#).

Please refer to the latest update of the PDF '*Newsletter Introduction, Your Member Benefits & Discounts*' in the Members Library for the background to this notional short term trading portfolio, including the Trading Rules developed for this Newsletter to demonstrate the signals to time entries and exits.

More details are explained in our Guide '*How to Write Your Own Trading Plan*, which is also currently provided with our compliments to [New Members](#).

As a Newsletter Member, you will also be able to email queries to '*Solving Your Trading Problems*' at Info@ShareTradingEducation.com.

Our aim is to show Members how to:

- ✚ Achieve notional profits of 10% to 15% in about 2 to 4 weeks
- ✚ Keep notional losses below 10% and preferably below 5%
- ✚ Accomplish a success rate of over 50% and preferably above 65%

We do **not** include any new notional trades which have already gained more than 4% by the time the Newsletter is first published after an entry signal is given. Why?.....

.....Because we consider it would not be ethical to search the market and only show trading examples that had already had significant gains. It would certainly improve our notional trading performance but we are more concerned with quality education than manufactured high returns.
