Your Financial Independence is at the Heart of Everything We Teach

Today's Stock Traders' and Investors' Free Wrap is based on an EXTRACT from the Introduction to our latest Edition 393 of our Mentoring style 'Investing & Online Trading' Newsletter

1. Coming Soon! – Jim's New Trading & SMSF Signals Services

Over the 7.5 years since we launched our '[Investing & Online Trading](#)' Newsletter, we have received numerous requests from Members asking for timely notification when, from those shares which Jim Berg follows, a confirmed Entry or Exit Signal is generated.

Jim has recently completed extensive back-testing of many of his Signals over a number of years, with very positive results. Today, we reveal that very soon we plan to announce the launch of Jim's two new Signals Service Memberships, as supplementary education to this Newsletter:

- 1) JB Stock Market Trading Signals (*using daily charts and notifications*) and
- 2) Jim Berg's SMSF Signals for Self-Managed Superannuation Funds (*using weekly charts and notifications*)

We are now in the final stages of preparation and expect to unveil these 2 new Services within a few weeks. Meanwhile, as the number of new Members we take on when we launch will be limited, so if you would like **to be one of the first to be notified at that time**, please:

- a) Send us an email now to Info@ShareTradingEducation.com and
- b) Simply type in the subject line, which Service(s) you could be interested in, i.e. "Trading", "SMSF" or "Both"

and we will send you the details soon.

Also, we intend to produce an FAQ document when we launch, so if you have any burning question you would like answered, feel free to add it in your email so your question is covered. Thank you.

2. New! 'How to Outrun the Bull in 2013' – An Evening with Jim Berg

At his 3 new evening seminars in March, Jim Berg will show you, step-by-step, how he trades and invests in the current market, in:

- **Sydney:** Tuesday 5 March
- **Brisbane:** Wednesday 6 March
- **Melbourne:** Wednesday 13 March

At the end of each seminar, Jim will show how to apply what you learn, to many stocks selected by the audience and himself.

Please Note: \$40 discounts are available. For more info on 'How to Outrun the Bull in 2013', [Click Here Now >>>](#)

Short -Term Trading Portfolio Update

By Jim Berg and John Atkinson

Introduction

Each week, in this section of our '[Investing & Online Trading](#)' Newsletter, we feature our '*Short Term Notional Trading Portfolio*', in which Jim Berg provides a '*live*' portfolio - to demonstrate (*in real time*) how he uses his common sense approach and JB Volatility Indicators to decide:

- ✓ **WHICH** stocks/shares to buy
- ✓ **WHEN** to buy
- ✓ How to manage his open positions, i.e.:
 - How and when to **HOLD** and, very importantly,
 - When to **SELL**

We also publish the results for each of those notional trades. Please refer to the latest update of the PDF '[Newsletter Introduction, Your Member Benefits & Discounts](#)' for the background to this notional short term trading portfolio, including the Trading Rules developed for this Newsletter to demonstrate the signals to time entries and exits.

More details are explained in our Guide '[How to Write Your Own Trading Plan](#), which is currently provided with our compliments to [New Members](#).

As a Newsletter Member, you will also be email your queries on Jim's trading strategies to us at Info@ShareTradingEducation.com.

Our aim is to show how to:

- ✚ Achieve notional profits of 10% to 15% in about 2 to 4 weeks
- ✚ Keep notional losses below 10% and preferably below 5%
- ✚ Accomplish a success rate of over 50% and preferably above 65%

We do **not** include any new notional trades which have already gained more than 4% by the time the Newsletter is first published after an entry signal is given. Why?.....

.....Because we consider it would not be ethical to search the market and only show trading examples that had already had significant gains. It would certainly improve our notional trading performance but we are more concerned with quality education than manufactured high returns.
