How to Filter a List of 'Out of Favour Companies'

By Jim Berg and John Atkinson

1. Introduction

Our aim is to help you get started in the market safely and wisely - or to improve your trading and investing skills.

Our mentoring-style '[Investing & Online Trading](#)' Newsletter teaches Jim Berg's common sense approach, developed over 30 years of trading and investing, 18 years of which were as a professional broker.

While we show Jim's '[JB Alerts](#)' and other examples for stocks and shares in USA and Australia, Jim's principles may also be quickly adapted for use in many other markets around the world.

Each week, Jim Berg demonstrates (*in real time*) how he uses his common sense approach and JB Volatility Indicators to decide:

- ✓ **WHICH** stocks/shares to buy
- ✓ **WHEN** to buy
- ✓ How to manage his open positions, i.e.:
 - How and when to **HOLD** and, very importantly,
 - When to **SELL**

Last week, we released our new **Free Report** '[17 Profitable Trades from 21](#)' in which Jim revealed how to make money with an 81% success rate on the notional trades featured in our Newsletter Portfolio between September 2012 and 2013.

The beginning of each calendar year brings out numerous share 'lists'. Brokers, newsletters and magazines each publish lists of companies that have the "...potential to produce excellent returns over the next 12 months..." In this section, '[How to filter watch lists](#)' - we show how to determine which shares - as recommended by 'experts' - pass Jim's rules.

Jim provides a tutorial each week for you to complete, with the results of his own analysis the following week. Jim shows how he tests each '[Expert Pick](#)' with his own strict '[Weight-of-Evidence](#)' Rules.

Please refer to the PDF '[Newsletter Introduction, Your Member Benefits & Discounts](#)' in the '[New Members Resources](#)' section, in the right hand margin of the [Members Library](#) for more background to this series of articles.

Today, we start with the first 3 stocks from our latest '[Experts Picks](#)' list - '**Out of Favour Companies**'. Do not feel overwhelmed by the technical terminology used in this article, or if you do not fully comprehend anything covered.

Should you decide to take up our invitation to become a Member **before 4 October**, you will receive a Free Bonus Welcome package (worth \$222), including free copies of [Jim's DVD](#) and '[How To Write Your Own Trading Plan](#)' Guide, which fully explains all the details. As a Member, you will also be able to email us with any queries.

Jim based his following analysis on [weekly charts as at 6th Sept 2013](#).

2. 'Out-of Favour Companies'

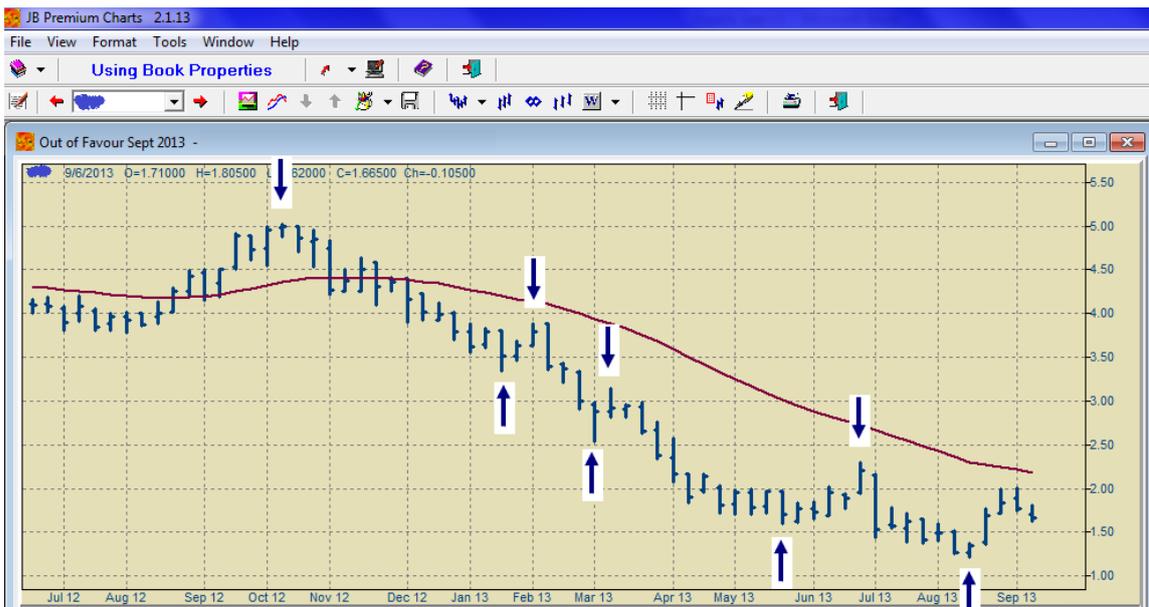

In July, expert analysts selected six companies that they believe are out-of-favour with beaten down share prices and carry some risk. Today we look at the first three **:

3. Pulling It All Together

We use Jim's '*Weight-of-Evidence*' stock selection tool to help us summarize our observations in this newsletter.

You can download it with our compliments from the '*New Members Resources*' section, in the right hand margin of the [Members Library](#).

- Stocks #1 and #2 failed Jim's first 'Weight-of-Evidence' Rule, so there was no need to examine any other rules
- Stock #3 failed Jim's 5th 'Weight-of-Evidence' Rule, so again, no further analysis was necessary
- Only one of the 3 companies analysed this week is in a **rising trend** and none has a current '**JB Alert**' or Jim's Volatility Entry Signal.

Accordingly, next week we can quickly move on to analyse the next set of 3 stocks to find which stocks, if any, pass all of Jim's Rules.

4. This Week's Tutorial: 'Out-of Favour Companies'

In July, expert analysts selected six companies that they believe are out-of-favour with beaten down share prices and carry some risk. The next there are (**)

We encourage Newsletter Members to set aside a few minutes to complete today's tutorial, as follows:

- Download Jim Berg's 'Stock Selection Tool' from the [Members Area](#)
- Rename the file (e.g. to '**Out-of-Favour 2013**'), then change the column headings to reflect your own rules, or borrow Jim's rules as listed
- Enter the last **three companies** mentioned above, one per row

Systematically and progressively enter **Y** for **Yes** or **N (No)** for each of these 3 companies and the respective rules – to identify those shares which pass all the tabulated criteria, **as at Friday September 13th, 2013.**

Feel free to amend the template to replace Jim's rules with your own. This tutorial is an educational exercise, *not advice*. Next week, Jim will show the summary of his own 'Weight-of-Evidence' analysis of these shares.
