## Update: Jim Berg's Upcoming Signals Services

### 1. Signals Launch Update

Last year we released a Free Report on Jim's exemplary track record between September 2012 and May 2013, called '*17 Profitable Trades from 21*'.

If you have not yet read it, we invite you to [Click Here](#).

In April 2013, just before we were due to launch our new Trading and SMSF Investing Signals Services, Jim issued a '*Caution*' in our weekly [mentoring-style Newsletter](#), so we decided to postpone that launch. Jim progressively closed the Newsletter Portfolio in May.

In our Wrap dated 19 December 2013, we provided details on Jim Berg's two upcoming Signals Services – for both short term Trading and longer term investing - in not only Australian shares, but also USA stocks and ETFs.

Below, we provide our **latest update on the pending launch**, based on current market developments.

In the 19 December Wrap, we also announced the release of our new IB Trading Platform and **Advisor-Assisted Facility** through our Trading Partner, Avestra Capital, so you can now:

- ✓ Do it Yourself (DIY) and/or use our Advisor Assisted Facility (for an Avestra Broker to assist you over the phone with your trade placement from time to time).
- ✓ Trade Australian, USA & other International markets
- ✓ Have access to an international award winning Trading Platform
- ✓ All at competitive rates

**This new service is now available and for all clients**, not just for those who become Signals Members.

In addition, (*as an optional service for Signals Members*) you will be able to request Avestra brokers to call you to discuss whether you want to enter any new Signals positions released by Jim.

Before reading any further today, we consider it pertinent to recommend you **first read (or re-read)** all the details on Jim's upcoming Signals and the new trading platform from the original Wrap of 19 December 2013 - so click here to [Download Your Free Copy Now](#)➔

## 2. Market Developments

In April 2013, just before we were due to launch our new Trading and SMSF Investing Signals Services, Jim issued a 'Caution' in this Newsletter, so we decided to postpone that launch and Jim progressively closed the Newsletter Portfolio in May.

Jim's initial 'Caution' was **47 weeks ago**. Since that time, the Australian market has increased by only about **10.5%**. It would have been a difficult trading time with erratic price movements, poor conversion results from Jim's 'Alerts' and little net gain.

The decision to add USA stocks to the upcoming Signals Services was made in December 2013.

In our Wrap of 19 December, we wrote that *"this will allow us to:*

- i) *Have a wider range of shares for potential Signals at anytime*
- ii) *Add the scope of having stocks in one country to look at while a 'Caution' notice is in place in another market*
- iii) *Optimise any potential Liquidity issues*
- iv) *Increase the number of instruments available to trade in **falling markets**, for those who prefer not to go to cash"*

In [this week's Newsletter](#) Edition 449, we include the following market developments:

1. *Page 11: Jim has found **only 1 RSI Alert**. This means that in the whole of the ASX300 market there is only 1 share that is in a rising trend and has given an RSI Alert. This is the **first time this has occurred** since we commenced this Newsletter in July 2005.*
2. *Page 21: In his Caution Update today, Jim writes: "The ASX200 Financials-x-A-REIT (XXJ), below, is in a rising trend and failed to make a new high this week. This sets up a potential divergence with the ASX200 Index. The last time this occurred was in Feb-April 2011 and was followed by a **24.3 % fall** in ASX200 (XJO), peak to trough."*
3. *Page 22: Alan Hull warns "...so in practical terms I **strongly recommend trading with extreme caution** in in the short term (i.e.. think of it as picking up pennies in front of a steamroller) while being mostly in cash and hedging any long term buy and hold positions.*
4. *Pages 23-25: The S&P500 closed at an all-time High on Thursday and again Friday, with the VIX 'Fear Index' expected to rise and UBS expecting a 3-4% retracement on the S&P 500 in March.*

## 3. Latest update on Jim's Pending Launch

Jim has deliberately held off the launch of his 2 new Signals Services until the Australian and USA markets retrace sufficiently together.

1. Jim currently intends to launch these 2 new Signals Services if and when sufficient retracements occur in these markets in the near future.

2. If so, Jim proposes to start the Signals Services and **trade the downside, as falling markets usually fall faster** than they rise.
3. Jim is currently planning to start the Signals Services using **inverted USA Exchange Traded Funds** and a '*Weight-of-Evidence*' Trading Plan developed specially for the Signals. These instruments are designed to increase in value as markets fall, without the need to use leveraged products such as options.
4. For those who are considering become a Signals Member and do not currently have a trading platform to trade USA ETFs, it makes sense to set up an account with Avestra now - so that you:
  - i. Are ready to go as soon as Jim launches his Signals Services and
  - ii. Will not miss out, particularly for trading both USA and ASX stocks from one account.

## 4. Your Next Step?

If you have any queries on IB's Trading Platform or Avestra's Advisor-Assisted Facility, please contact Rodney Steele or Dean Smith at Avestra on Ph.: 1300 882 402 or +61 7 5555 8500.

**If you have not yet contacted us** and would like us to add your name to that Expressions of Interest List - so that you will be one of the first to be notified, please:

- ✚ Email us at [Info@ShareTradingEducation.com](mailto:Info@ShareTradingEducation.com)
- ✚ Leave us your name & email and type in the subject line, which Service(s) you could be interested in, i.e. "Trading", "SMSF" or "Both"

We will then contact you with further details, as soon as Jim decides to launch these two new upcoming Signals Services.

May you trade with '*Weight-of-Evidence*,
