7 Answers to questions about our Australian 'Done-For You' news-based Trading Signals

At this unprecedented time, interest rates and incomes for many people are low, so **increased cashflow has become more important.**

That's why we recently opened our new '[Done-for You News-based Trading Signals](#)' for the Australian share market *.

Each night we now scan the ASX200 to locate those Australian shares which pass our '*News-based Entry Rules*', then, on behalf of our Trading Signals Members:

- 1) On our '**Entry Signals Log**' we nominate our:
 - a. Maximum suggested Entry Price
 - b. Initial Stop Loss price
 - c. Corresponding Trade and Portfolio Risk %
- 2) (In our '**Cutting Room Floor Log**' we also list any shares which were filtered out and rejected – for Members' extra interest)
- 3) Monitor each notional trading position in **2 discrete time frames**:

Method #1: Designed to grab quick profits in the order of **+10** to **+15%** in a few days**

Method #2: Designed to '*let profits run*' in a strong rising trend, using our '*News based Trailing Stop*' **

You can then select which frame you prefer to use, dependant on your personal circumstances, risk profile, lifestyle, etc.

- 4) Notify Members of any Exit Signals for the following day & post them on an '**Exit Signals Log**'.
- 5) Post the data of current prices, profit targets, stop loss type and value for all notional positions each night on a '**News-based Trading Master Log**'.

* This is not a Managed Discretionary Account service.

** The past performance of ShareTradingEducation.com (STE) products is not and should not be taken as an indication of future performance. Caution should be exercised in assessing past performance. STE's service, like all other financial services, is subject to market forces and unpredictable events that may adversely affect its future performance.

We've received several questions over the last 2 weeks, so we thought we'd answer some here today - for the benefit of everyone.

Q1: " *Is it okay to split funds in half and take trade BOTH time frames for each new Entry Signal I.e. Method #1 to lock in quick profits with one position and Method #2 to let profits run with the other?* "

A: Both time frames are possible with 2 smaller positions and as always Money and Risk Management are important.

Customer Caution Notice Jim Berg and John Atkinson are Authorised Representatives (AR Nos. 322724 and 1251439) and ShareTradingEducation.comTM Pty Ltd is a Corporate Authorized Representative (CAR No. 322726) of Maven Capital Pty Ltd, Australian Financial Services Licence AFSL 418504. Information provided in this document is of a General nature only. Examples from the Australian and USA markets are provided to demonstrate that Jim Berg's principles may be used globally. This educational material is from an Australian source and complies with Australian law and not necessarily any other (local) law. Please seek independent financial advice before you decide if this is appropriate for you. Refer also to the Customer Caution Notice at the back of this document and our [Terms and Conditions](#)

Q2: " Which Charts do you use and do I need to have charts to use the Signals Service? "

- a) We use [JB Premium Charts](#) which include Jim's JB Profit Taker and Trailing Stop.
- b) No this is not necessary – that's why we call our Signals a 'Done-for-You' Service* -as we do all the analysis for selection, entry and exits on behalf of our Signals Members*.

Q3: " How do I set Profit Targets? "

A: For each new Entry Signal we recommend a maximum entry price AND - for those using **Method #1** (see above) – our suggested Profit Target**.

Once notional positions are 'open', we then monitor those profit targets on behalf of Trading Signals Members and notify Members if any have warranted any adjustment.

Q4: " My trading platform has a facility to place a Stop. Do I set the value as shown on the Signals Logs? If not, how do I know when to exit? "

A: Usually, most automated Stops on Trading Platforms are based on *intraday* price action. I.e. if the price drops during the day, their systems automatically exit your position.

In case the share price rebounds from below the Stop during the day and closes above it, our preference is to use END OF DAY Stops for the 3 types of Stops we use for this News-based Trading approach. (This is either 1 or 2 consecutive days, as applicable).

As part of this 'Done-For-You' Signals Service* if any 'open' notional positions trigger an exit, then we post it on the **Exit Signals Log** and notify Members in our nightly covering email.

Q5: "To get the News-based signals, do I have to also join the Investing Signals too?"

No this is NOT a requirement but it is available (*please contact us if this is of interest*).

Q6: " Is your Launch Offer still open? I.e. Can I still get 2 Sets of Trading Signals under the one Membership? If so for how long and how much is it to join?"

Yes, you do receive BOTH sets of Trading Signals and *for as long as you remain a Member(see page 3 below)*.

Usually the membership for Jim's traditional trend following Trading Signals is AU\$127/month.

However, IN ADDITION, to celebrate the launch of this new Service, you currently **ALSO** receive on-going access to our new end-of day 'News Based' Trading Signals Service for short term trading (over a few days or weeks) in the current market – and at **no extra cost**.

Q7: " If I join today, does my first month membership only go 2 weeks to the end of June?"

No. Your first subscription renewal date is 1 month after the date you join.

(There is no lock-in contract - so you can easily cancel at any time).

Your financial independence is at the heart everything we teach, so feel free to [Contact Us](#) if you have any queries. Kind regards,

John Atkinson and Jim Berg

“ Join Today and You Receive 2 Sets of Trading Signals in ONE Membership.....”

Usually, Jim Berg's Trading Signals for Australian shares cover his traditional trend following approach *only*.

In the current market, Jim is waiting for market volatility to '*return to normal*' before adding new confirmed entry signals there.

Meanwhile, each night Jim posts those shares which pass his traditional entry criteria (except for volatility) - for Signals Members interest.

IN ADDITION, to celebrate our launch of our News-based Signals:

Become a Member of our Australian Trading Signals today and you **ALSO** receive:

- ✓ **On-going access** to our '**Done-For-You**' **News Based Trading Signals Service** for short term trading and
- ✓ *At no extra cost*
- ✓ I.e. **You receive 2 Sets of Australian Trading Signals in ONE Membership**

There's *no lock-in contract*, so you can easily cancel at any time.
